

Improve the effectiveness of your Environment of Care Rounds

Environment of Care Rounds are a powerful tool for patient safety. Whether via Joint Commission or DNV accreditation, CMS mandates your ongoing compliance to various standards.

Walsh Rounds Tracker puts the power you need to control this complex process into your hands. Each discipline has access to their own checklists, and multiple checklists are available. Whether you import your own or download Walsh industry standards, each one is easily customizable to meet your needs.

Available on:  App Store  Google Play

User friendly & customized to your needs
