Improve the effectiveness of your Environment of Care Rounds

Environment of Care Rounds are a powerful tool for patient safety. Whether via Joint Commission or DNV accreditation, CMS mandates your ongoing compliance to various standards.

Walsh Rounds Tracker puts the power you need to control this complex process into your hands. Each discipline has access to their own checklists, and multiple checklists are available. Whether you import your own or download Walsh industry standards, each one is easily customizable to meet your needs.

Available on:  **App Store**  **Google Play**

User friendly & customized to your needs

Walsh Rounds Tracker

- Easy to use software
- Custom checklists
- Automated follow-ups
- Reduced re-work
- Instant detailed reports

What you get

- Clarity of problems and the root cause
- Ongoing preparedness for any accreditation, survey or visit
- A consistent improvement in performance

Automate your environment of care rounds

Each team member has their own custom checklist.

Instant summary report of the day's activities.

Automatic follow-ups and reminders.

Improve performance and patient satisfaction.

What you can do with Walsh Rounds Tracker

Inspector

- ✓ Get custom checklists on your phone or tablet
