

Performance Platform

Walsh Performance Platform

For over 25 years, Walsh Integrated has been providing technology and tools to manage quality and improve performance. Our apps for **inspections, checklists, surveys, tests and audits** stream all your data into a single environment where automated follow-ups and configurable workflows ensure work is completed on time. Customizable reports get you the information you need when you need it.

Walsh's technology automatically correlates data from different sources and gives you insights into how your team is impacting outcomes such as customer satisfaction, compliance, and profitability.

Why you'll love Walsh technology:

Time Savings

Reduce data entry.
Get reports you need fast.

Reports & Data

Instant accurate reports, easy export to Excel, PDF, etc.

Accountability

Track performance to ensure accountability.

Cost Effective

Save time and money from day one.

Walsh's Awesome Customer Support!

We understand your daily challenges with deadlines, staff turnover and competing priorities, so we get your team up and running quickly. We gather data, configure databases, and train (and retrain) your personnel.

Use any device
Record inspections
anytime, anywhere.

Create custom reports & dashboards
See the data the way you want,
every time.

Real time results
Improve performance and
customer satisfaction.

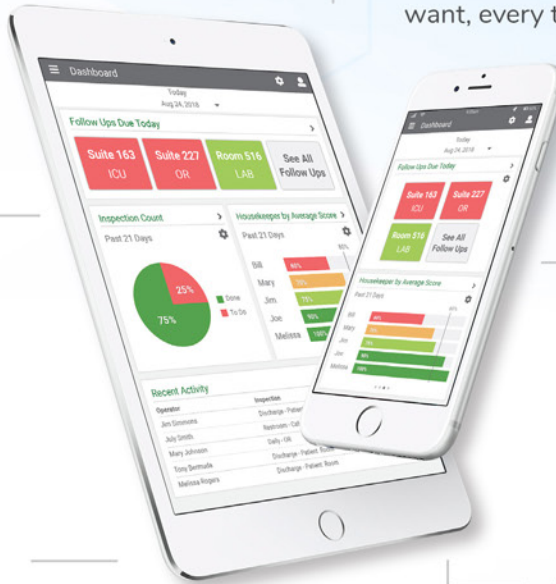

Track overdue issues
Automated follow-ups,
reminders and escalations.

Custom checklists
Download from our library
or customize your own.

Ensure accountability
View and manage
performance by
individual.

Single User? Local Team? National Standards?

With the Walsh Performance Platform you can use any...

Inspection, checklist, survey, test, or audit.

- ✓ Download from our library or use your own
- ✓ Share across your team
- ✓ Create groups and manage rights and distribution

Walsh Compliance Library: download from regulators, accreditation bodies or any other source. If you don't see what you need, let our Compliance Content Team create a verified version for you.
