

Healthcare

Hundreds of healthcare facilities across the US and Canada rely on Walsh Integrated Solutions to power their success. Since 1992, Walsh has been developing solutions to meet the unique needs of the healthcare industry.

Are you trying to manage Managers, Supervisors, Specialists and workers, scattered across buildings, a campus, or even across the State?

Do you need to ensure that rooms are clean, laundry is usable, grounds and pests are under control?

Does your facility participate in The Joint Commission or DNV accreditation audits?

Are HCAHPS scores part of your world?

Walsh products are here to help you and your team achieve your goals.

Walsh QA Inspector – a single mobile system that manages all aspects of your cleaning QA program; Mobile Inspections, ATP and Fluorescent marking, OR inspections, IV Compounding rooms, and much more.

Housekeeper Task Management System – manage your housekeepers more effectively with immediate feedback on tasks completed and rooms cleaned, using mobile devices

Employee Knowledge and Continuous Readiness – ensure your staff are up to date on their knowledge and ability to respond appropriately when asked.

Patient satisfaction – monitor patient experience yourself. You can get ahead of feedback from HCAHPS results. Identify patient and family issues or complaints in real time and take care of them before they become problems.

Healthcare

Walsh Laundry Quality Manager – Ensure the laundry you deliver meets the needs of your patients and staff. If something is stained, torn, missing a tie, or somehow not useable, you can now segregate, record, and manage it on the plant floor or wherever it is being used. Get accurate reports on inventory adjustments, usability issues, costs, and more, updated daily.

Pest Management – use our NPMA checklists to manage risk and ensure you keep your facility pest free, indoors, and out.

Grounds Management – Easily manage the conditions of your grounds, with or without data connectivity. Walsh's mobile app allows your staff to provide up to the minute updates on projects and tasks.

And remember, Walsh's technology works in a single integrated framework. This means that once you are setup, you can simply add apps or checklists as you need them.
