Walsh Patient Satisfaction Insights
Why Wait for Client Feedback? Go Get it Today.

Have you ever been frustrated by some patient's feedback or client's complaint? If you could have heard that complaint or request immediately, could you have corrected it before it became a problem.

Walsh Satisfaction Tracker is a powerful system that allows you to find out what your customers and patients want, in real time.

You will be instantly notified of the request or complaint and can act on it immediately.

Load any Survey or questionnaire into the Walsh app and get going today.

- Retail stores
- Hotels and restaurants
- Hospitals, long term care

These interactions with your customer, patient, or their family will be recorded on your phone, and the feedback can trigger automated actions or create a specific workflow.

All your results appear in reports and dashboards, giving you powerful insights:

- Is there a cluster of housekeeping complaints recurring on the same floor?
- Are the same housekeepers or supervisors involved?

Given Walsh's unique architecture, your data from unrelated surveys can be rolled up into consolidated reports providing new and eye-opening insights.
