

## Walsh QA Inspector

# Automate your Cleaning QA Inspection Program

Using a tablet or phone, you can inspect the cleanliness of any area in your facility.

How well are your people really cleaning your facility?

You need to know that your staff are cleaning properly, whether in your building or across the campus. Managing hundreds of housekeepers and numerous supervisors, often across 3 shifts, can be challenging.

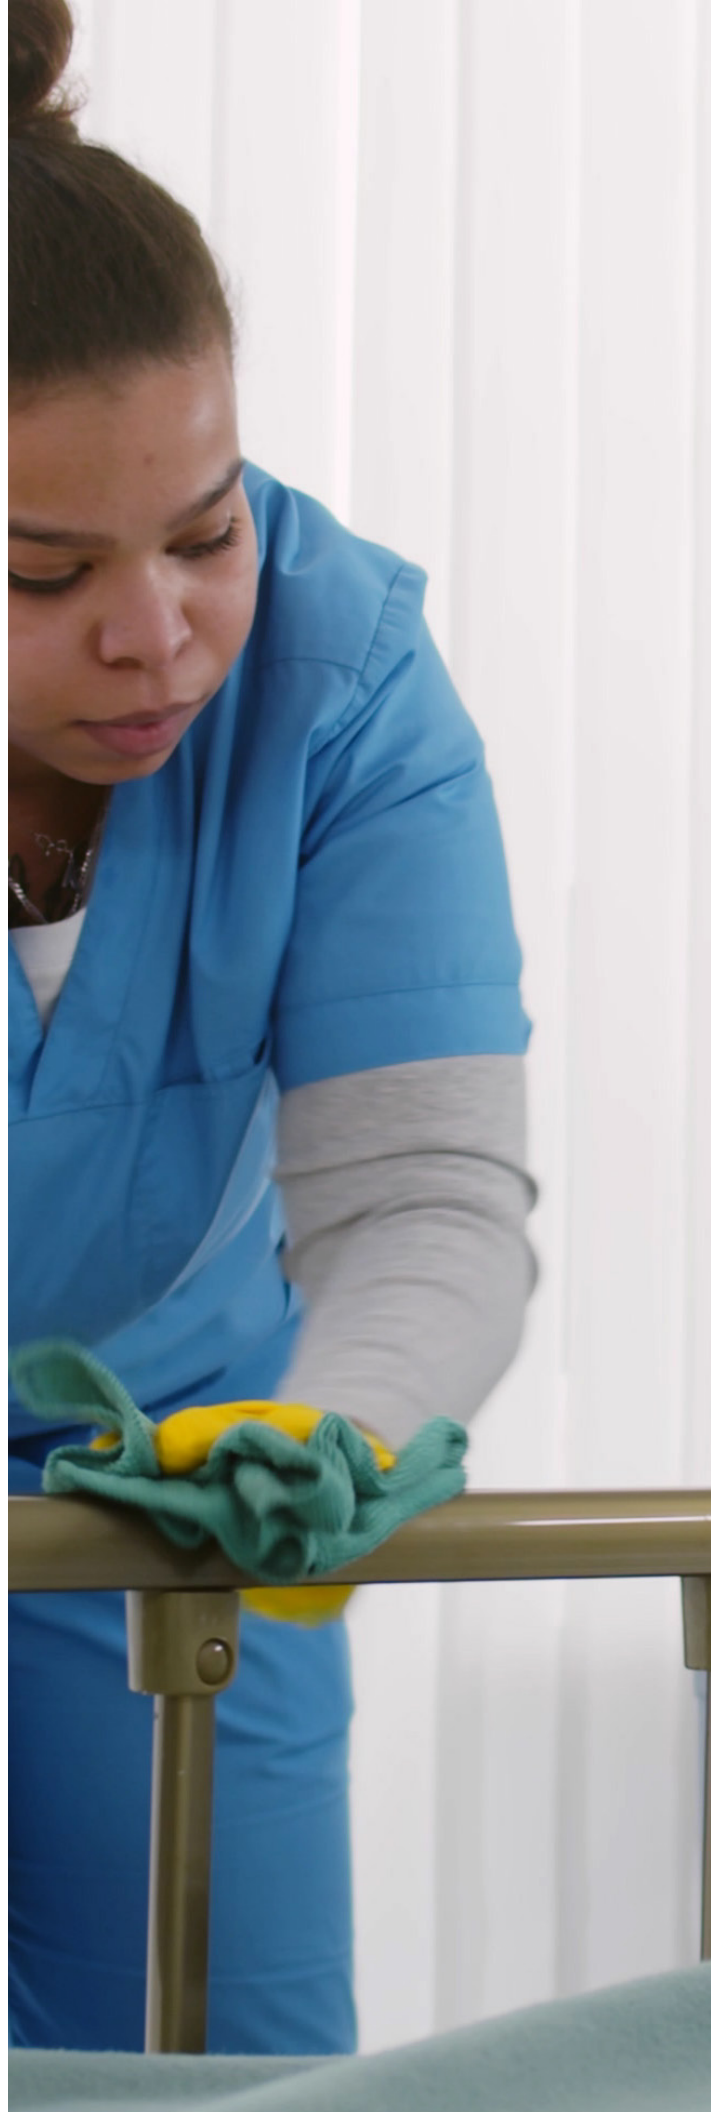

Walsh QA Inspector is the system that tells you who is cleaning what, and where, and how well. If there is a problem, it is easy to identify and correct, and your records are always up to date.

Accurate reports are ready in an instant, for internal use, reporting to senior management, or for a surprise audit.

Focus your energy on training and improvements instead of chasing paper.

### What you get

- Perform inspections from any phone or tablet
- Record location, staff, issues found, and more
- Link photos, notes, and signatures to inspections
- Create follow-ups with automated reminders
- Download checklists; off the shelf or customizable
- Scores are automatically calculated for each housekeeper
- View detailed results by housekeeper, supervisor, or department
- Setup inspection schedules and quotas
- Access reports instantly to print, email, or auto-run.

## Management

- Easily customize your checklists. Add standards, procedures and more.
- Create and manage assignments
- Integrate seamlessly with TMA<sup>®</sup>, TMS<sup>™</sup> and other work order systems
