Industries ~

Key Benefits

No Lab Equipment Required

Ready to use vials of ATP.

No need to rehydrate the vial, just use swabs for evaluating results, simplifying your verification testing processes.

No Sample Preparation needed

Simple to reconstitute vials for use - just swab.

Designed for use with UltraSnap, SuperSnap, SpotCheck Plus and EnSURE Touch to validate test device results.

Supports GMP Program

Easy to validate testing.

Monitor and track performance of Hygiena equipment and devices, ensuring accuracy of testing.

Support GMP and Provide Peace of Mind

The Hygiena Positive Control kit for UltraSnap®, SuperSnap®, and SpotCheck contains 25 glass vials of 5×10⁻¹³ moles of lyophilized ATP and sugar. It's the perfect companion to validate testing to support GMP efforts or to troubleshoot concerns over product storage temperatures and provides peace of mind within your standard operating procedures. Best of all, it's simple to use... no sample preparation or lab equipment is needed.
